

## Job description - iOS Developer

We are looking for an iOS developer having experience of 1 to 3 years and who is responsible for the development and maintenance of applications aimed at a range of iOS devices including mobile phones and tablet computers. Your primary focus will be on the development of iOS applications and their integration with back-end services. You will be working alongside other engineers and developers working on different layers of the infrastructure. Therefore, a commitment to collaborative problem solving, sophisticated design, and the creation of quality products are essential.

No bar on Salary for the right candidate.

Preferred- Immediate Joining or within 7 days.

### **Responsibilities:**

Design and build applications for the iOS platform.

Ensure the performance, quality, and responsiveness of applications.

Collaborate with a team to define, design, and ship new features.

Identify and correct bottlenecks and fix bugs.

Help maintain code quality, organization, and automatization.

Role: Software Developer

Industry Type : IT-Software, Software Services

Functional Area: IT Software - Mobile

Employment Type Full Time, Permanent

Role Category Programming & Design
